KENOTEK COAT IT

The core of our profession is to generate a sensation of the pure, new and protective character with every treatment. The gloss and a shine body work is the living proof of that! Our job is to let vehicles shine in all glory! That is why we, KENOTEK, develop products for every step in the process. In short, a full product range that provide a sensational experience for everyone in the industry.

There is magic when our products come into contact with the body work and that is what we always strive for.

As a reliable partner for professionals, active in the car care industry, we have developed a complete and user-friendly concept. So that you, as customer, are able to offer a high-quality program to the end-user.

We always stay one step ahead by thinking along with our partners and thus arriving at concrete solutions.

Strong quality products combined with extensive service and ongoing support ensure a sensational return on investment for all our partners worldwide.

PRE AND
AFTER CARE

FLEXO

- **Hydro- and oleophobic** treatment for vehicles
- **7H** hardness
- Excellent hydrophobic quality: contact angle water exceeds **105°**
- **Non-sticking** effect
- **Smooth surfaces** to minimize micro scratches
- **Improved resistance** against stains of water
- Lifetime of **18 months***
- Content is **50 ml**

* With correct and regular use of the recommended aftercare products that are shown on p. 16 to 19.

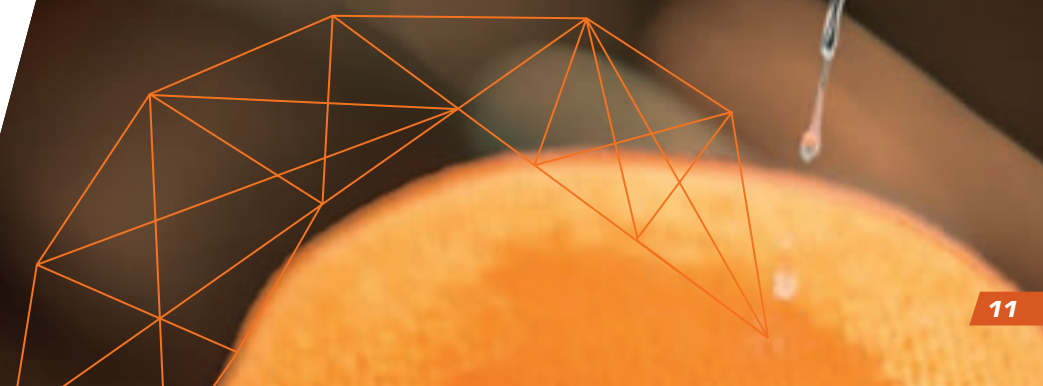

CAMIQ

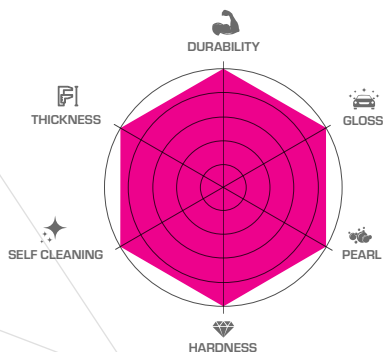

- **Hydro- and oleophobic** treatment for vehicles
- **80%** active substances
- **9H** hardness
- Excellent hydrophobic quality: contact angle water exceeds **110°**
- **Non-sticking** effect
- **Smooth surfaces** to minimize micro scratches
- **Improved resistance** against stains of water
- Lifetime of **36 months***
- Content is **50 ml**

* With correct and regular use of the recommended aftercare products that are shown on p. 16 to 19.

FORCE²

- **2 components hydro- and oleophobic** treatment for vehicles
- **100 %** active substances
- **9H** Extreme hardness
- Excellent hydrophobic quality: contact angle water exceeds **+120°**
- **Non-sticking** effect
- **Smooth surfaces** to minimize micro scratches
- **Improved resistance** against stains of water
- **Silksmooth surface**
- Lifetime of **60 months***
- Content is **50 ml + 100 ml**

* With correct and regular use of the recommended aftercare products that are shown on p. 16 to 19.

AFTERCARE BAG

GET THE MAXIMUM OUT OF THE TREATMENT

To maximize the effects of the coating, we offer a set of premium aftercare products. A handy bag is provided to store these products in the trunk of your car or a place of your choice.

With proper aftercare, the lifetime of your coating is considerably extended.
